Reports to Members

FROM your PRESIDENT by Bill Sax

Greetings CCI,

Happy New Year! Can you believe it's 2020? Wow, how time flies. I hope all of you had a great Christmas season and are looking forward to another fun filled year.

CCI has three rallies scheduled for 2020. Lakeland, Florida is this month, Kerrville, Texas is in April & then we're going to Santa Fe, New Mexico in June. We are working on rallies for the fall. Try & join us at one or all of them. The opportunity to make new friends, reconnect with old friends is why we do these. Plus, there is the added benefit of having the chance to talk with other Country Coach owners and learn tips & tricks to keep our awesome coaches looking good & running like the classy coaches that they are.... Plus, we always have sightseeing and culinary excursions.

As for us we are now wintering in the Orlando area. This is our first year doing this, so we are learning what to do. We have been told the past week or so the weather has been unseasonably warm. But that's fine with us. It's in the thirties & snowing at home, meanwhile we are basking in the eighties. We'll be here until mid-March, then we're heading back to the Texas Hill Country until the Rally in Kerrville. If you're anywhere near us feel free & contact us and we can get together.

When I was at work it was common for all of us to have a standard answer to the question, "How are you doing?" The canned answer was "Living the dream." It was almost always said sarcastically. But now it's true!

Whether you are a full-timer, part-timer or a weekender. Make sure you enjoy your Country Coach and live your dream.....

We'll be CCing you.....

Bill

Electrical – Instrumentation

By Brian Keys

1. Gauge Accuracy

The accuracy of most analog gauges is limited, but if they are significantly misreading - especially when the dash gauge illumination is at full brightness - then you may have some undesirable resistance at the ground connections behind the dash. The easiest fix is to run an additional 12 AWG ground wire from the chassis framework beneath the dash to one of the daisy chained ground terminals on the rear of the gauges. Does your coach have the digital gauge package or a digital dash where some of the gauges are not working? This dash instrumentation receives its information from two different sources via two separate twisted-pair 'network' cables. No readings on the tachometer, odometer, oil pressure and boost pressure gauges would indicate a communications failure with the ECM or Engine Computer Module. No readings on the remaining gauges such as speed, fuel level, and brake circuit pressure would indicate a communication problem with the 'DCU' or Data Collection Unit which is located in the steering compartment. In both cases, check the electrical connectors in the steering compartment for loose or corroded connections.

2. Ignition Solenoid

Should your coach develop intermittent problems where nothing happens when you turn on the ignition switch, the most likely culprit is the ignition solenoid. This is located behind the access panel in front of the passenger seat on earlier Allures and Intrigues, and on the Front Run Board in the steering compartment on earlier Magnas and Affinities. Tapping on the relay with the ignition turned on will usually get you home, but be aware that you may have to tap it a second time when the ignition is turned off for it to disengage

History of 3R RV

Jimmie started out working for Byerly in 1981. Jimmie was frustrated in his position as service manager because he was unable to help long time customers, because sales kept the shop so busy there wasn't room or time. So in October 2005, 3R RV was conceived. We knew we did not want to sell anything, we just wanted to help folks stay in their current unit and help keep them maintained. We met with Frank Reed who was looking to semi-retire from the RV business, came to an agreement and we opened our doors December 1st, 2005. We owe our success to all of you, for spreading the word about 3R RV and the great service our technicians provide. Our Technicians are RVIA Certified. We strive to do our best, but we are not perfect and when we make a mistake, we hope you give us the chance to make it right. We can't fix what we don't know about.

We started this business because the wait time to get in was months at dealers and we are finding that we are so busy we are weeks out, a month if its major repair. This is not acceptable to us that is why we are looking to hire 1-2 more technicians or anyone with construction background. Do you know of anyone that loves helping customers, likes learning and looking for a career with benefits, if so have them call 636-583-2244 and ask for Christina Reynolds. If they have a good work ethic we can teach them the rest.

Vendor Spotlight - Bright Idea Ventures

After 43 years in the Cleaning and Restoration business for me and 20 years of being a Police Officer, Debbie and I retired to our Country Coach as Full-timers. As we traveled with this great group, we met Bill and Linda Herring and bought some LED's from Bill. We were impressed with the difference in our lighting and was about to buy the rest of our LED's from Bill when Deb saw on Facebook that their coach was for sale. I called Bill and asked what kind of coach he was going to buy, he said "we aren't we are selling everything and moving to Pennsylvania, of all places." I asked what are you going to do with your light business, and the rest is history.

That was two years ago. Since we bought Bill's business we've learned a lot about LED's and expanded our inventory. We now carry a wider selection of LED's and color. We have had several new LED's produced. Bill was already set up with a great manufacturer and we have stayed true to them. We now do professional shows around the country, we have a website www.brightidearvledlights.com with our complete inventory there. We ship LED's all over the United States and Canada. We have just begun our wholesale end of our business.

For Deb and I this is an awesome and fun business. We have met so many people and really enjoy the rallies we attend. Since starting our business we have bought a Casita at Buckhorn Lake RV Resort in Kerrville TX as a base to work from when not on the road.

We look forward to hosting this awesome group of Country Coachers here in Kerrville in April.

And don't forget, CCI gets a 10% discount on all our LEDs and 20% if you get 20 or more.

Until then we will see you on the road.
