TO PHONE THE CLUB: See table (next page), select the appropriate Officer and phone that person. Please help us keep your membership up to date, by logging in and checking to ensure your membership is current and that we have all of your current contact information.

COUNTRY COACH INTERNATIONAL (CCI)

WHO ARE WE?

CCI is a non-profit organization, 501(c)(7), centered on Fun and Fellowship. The Club was founded in 1984 and is a Chapter of the Family Motorcoach Association (FMCA).

WHAT WE DO

The Purpose of the Country Coach Club is to: provide a community for all Country Coach motorcoach owners to exchange information, provide opportunities for fun and fellowship, support CCI and FMCA activities such as rallies and FMCA conventions, provide a common communication and resource link for CCI members and to help our fellow Country Coachers.

EDITORIAL POLICY

The CCI eNewsletter is published monthly, online by Country Coach International. The eNewsletter Editor is Debbie Glenn, who can be contacted by calling 325-669-6840 or online - dglenn@smabix.com. The Editor reserves the right to edit, shorten, or modify any material submitted.

Reproduction of *ON the ROAD AGAIN* in whole or in part, including photocopy, except for personal use, is prohibited without the expressed written permission of the Publisher. CCI is not responsible for any liability arising from errors, omissions, mistakes or products/service found in the eNewsletter. Readers should proceed cautiously, especially with respect to technical information.

PHOTOGRAPH CREDITS Club Members and CCI Files.

CLASSIFIED AD POLICY

Classified Text or **Display** full color advertising submitted for publication in this eNewsletter may be subject to publisher's discretion. Only advertising of interest and/or service to CCI members/Country Coach motorcoach owners will be accepted. Ad placement in this eNewsletter does not imply endorsement by CCI of the product/service. For advertising, space availability, rates and more information email the club at club@countrycoachclub.com

Reports to Members

FROM your PRESIDENT by Bill Sax

Hi, CCI!

Finally, it's March. For you folks who are where it has been warm, be thankful... Up here in the snow-belt, ugh. It's snowing right now! What the heck, its MARCH!!!!

We went to the CCI Rally in Tennessee and when we got home work got in the way, so we winterized "CC" a little earlier than normal. We have been sneaking south around Thanksgiving & Christmas the last couple of years but that dang work really got in the way so, winterize.

Throw in a crappy cold, rainy, icy & snowy winter and I am going crazy! I still fire CC up occasionally and took her for a drive to exercise her, then I put her back in the driveway and just sat in her until Rita came looking for me. Last month was the St. Louis RV show, that didn't help. Now I'm really antsy.

This year is going to be different then all of our

other years. After the summer I'm retiring, and Rita & I are taking off on a trip for a significant amount of time. Minot & North Dakota for three weeks, then Michigan for a while. We plan on taking a leisurely trip north around the Great Lakes on a slow drive to Foxboro and the Fall CCI rally. After that sneak home south of the Lakes for a couple of weeks then head south for the winter. No more window scraping for me!!!!

So, setting up CC for this year is different. Less grandkid toys, more adult things. More clothes, bikes, golf clubs and books. Plus, we are upgrading our batteries and internet set up. So, I have a lot of things to get organized. Our first trip? First week in April, a Corps of Engineer campground 30 minutes away. I can hardly wait....

De-winterizing CC & doing some house cleaning is just a couple of weeks away. How about you, getting ready?

Bill Sax

History of 3R RV

Jimmie started out working for Byerly in 1981. Jimmie was frustrated in his position as service manager because he was unable to help long time customers, because sales kept the shop so busy there wasn't room or time. So in October 2005, 3R RV was conceived. We knew we did not want to sell anything, we just wanted to help folks stay in their current unit and help keep them maintained. We met with Frank Reed who was looking to semi-retire from the RV business, came to an agreement and we opened our doors December 1st, 2005. We owe our success to all of you, for spreading the word about 3R RV and the great service our technicians provide. Our Technicians are RVIA Certified. We strive to do our best, but we are not perfect and when we make a mistake, we hope you give us the chance to make it right. We can't fix what we don't know about.

We started this business because the wait time to get in was months at dealers and we are finding that we are so busy we are weeks out, a month if its major repair. This is not acceptable to us that is why we are looking to hire 1-2 more technicians or anyone with construction background. Do you know of anyone that loves helping customers, likes learning and looking for a career with benefits, if so have them call 636-583-2244 and ask for Christina Reynolds. If they have a good work ethic we can teach them the rest.

Thank you for 13 Years

De-Winterizing your Coach

Compiled from the Country Coach Tech Topics site by Mike Cebula

De-Winterizing Your Motorcoach by John Bickel

If you winterized your coach properly, de-winterizing for spring and summer use should be much easier.

Wash and Flush

First, if you stored the coach outside, a complete and thorough wash and interior cleaning is recommended. The holding tanks (fresh water, black water, and gray water) along with the entire plumbing system should be flushed thoroughly to remove any RV-type plumbing anti-freeze that you should have installed for winter storage.

This should be completed prior to hooking up your icemaker water feed line or filling your water heater. Even if the RV plumbing anti-freeze you used to winterize your coach was labeled as non-poisonous by the manufacturer, the taste is terrible and should be removed from your fresh water supply.

Changing the potable water filter cartridge is recommended at this time (prior to refilling the potable water distribution system). Depending on the model of your coach, the filter is located behind an access panel in the plumbing bay on the passenger or driver's side. On Allures and Intrigues, the filter is located in the driver's side compartment immediately forward of the plumbing bay, behind an access cover on the aft bulkhead. When the cover is removed, the filter housing is exposed. By unscrewing the lower section of the filter housing, you gain access to the filter cartridge. Before unscrewing the filter housing, ensure that the city water hookup is disconnected and that the water pump has been turned off. Turn on the faucet in your plumbing bay to depressurize the system and use a small bucket beneath the filter housing to catch any water that may spill as it is removed. Take care not to dislodge or lose the rubber seal that seals the filter housing to the filter head and only tighten the housing hand-tight after replacing the filter. Don't forget to check for leaks after the filter has been replaced and the system has been pressurized. Depending on the quality of your fresh water and your usage, this new filter should be adequate for a full season. Reduced water pressure on all faucets is an indicator that the filter should be replaced.

Batteries

Chassis and house batteries (liquid lead acid type) should be topped off to the proper level with distilled water and fully charged. The correct level is typically 3/16" below the vent tube that is visible with a sealed flashlight after removing the caps. Overfilling the battery will cause loss of electrolyte as the battery charges. Make sure all the battery cables are clean and tight. All Gel Cell and AGM (Absorbed Glass Matt) batteries are sealed and maintenance free. Do not remove the caps from these batteries or permanent damage will occur! These batteries are pressurized so it is normal for their cases to appear slightly swollen. The exterior surfaces of the batteries should be kept clean at all times to avoid parasitic discharge across the surface grime. Always wear chemical gloves and safety glasses when working on or near batteries. Remove any jewelry from your hands and wrists and do not smoke. Lastly, use a spark proof light such as a waterproof flashlight when checking the electrolyte levels. Plastic or rubber lights are preferable since they will not create a short should they fall onto the battery terminals.

Tires

Tire pressure should be checked and adjusted to the proper cold inflation pressures for the weight of your loaded coach.

De-Winterizing your Coach continued

Engine Coolant

Engine coolant must be at the proper level in the surge/overflow tank with a 50/50 mixture of anti-freeze and water. Check the system for any leaks. This is a good time to take a small sample of coolant from your cooling system to the engine manufacturer (you may call the country coach service dept. for a referral) and have it checked for the correct pH balance, nitrates and cooling system additives.

Engine Oil & Filter

The engine oil and filter should have been changed when you put your coach in storage. If you did not complete this task, now is a good time to do so. If you did, a quick check of the oil level is all that is needed. While you are in the engine compartment check the rest of the fluid levels and top off as necessary.

Engine Belts & Hoses

Check for the proper belt tension, and for any signs of deterioration and cracks in the belts and hoses. Replace as required.

Windshield Wipers & Washer

Now is good time to replace the windshield wiper blades (nothing like a new set of wiper blades to cut through all those bugs), and fill the windshield washer reservoir with fluid. Don't forget to test the system for proper operation before your first trip out.

Diesel Fired Furnace, (Hurricane)

Check the fuel and coolant hoses for leaks and hose clamps for corrosion and tightness. Start the furnace and check for signs of abnormal operation that may indicate a routine service is necessary. Some smoke and erratic combustion sounds are normal during the initial startup, especially after long periods of storage, but these should quickly clear within a few minutes.

Diesel Fuel

Your diesel fuel tank should have been filled prior to storage, if not go "fill 'er up". Now you are ready to stock up your food supplies and necessary clothing before hitting the open road to your favorite vacation spots. As you can see, the precautions you took in winterizing the coach last fall for storage have really paid off, and have made the de-winterizing process relatively easy as you prepare the coach for summer travel.

PS. If you have been enjoying the warmer climates over the winter months and are preparing to head back home, let me remind you to check tire pressure and fluid levels (diesel, engine oil, hydraulic oil, coolant, LP gas, windshield washer solution, wipers, and battery electrolyte) before heading out.

Meet some of your Board of Directors

Treasurer

My husband, Max Hegler, and I have been retired since 2004. We've been married almost 50 years and love to travel. Max was in the USAF for 33 years and I followed him to almost every assignment with the exception of Thailand back in the early 70's. I did fly over for a visit however. I have a Degree in Elementary Education and used it for a short while, about four years, but took off a few years to raise our two girls. When I did return to the workforce, computers had finally caught up with my passion and I worked as a Systems Administrator, Instructor, IT Analyst, Help Desk Coordinator, IT Technician for various school systems and finally EDS/HP. I worked to be very flexible for whatever job was available as we moved around in the military life. We bought our first motor coach in Nov 2017, named her Hazel, and it's been a love affair ever since. The RV life is perfectly suited for our love to be on the move and travel and we can include our wonderful fur baby, Jake, a yellow lab. He loves it too. I am honored and excited about serving as Treasurer for CCI. Nicest group of people ever!

VP Communications

My husband, Gary Glenn and I are living the dream! We have a beautiful Casita at Buckhorn Lake RV Resort in Kerrville, TX. Gary owned his own Cleaning & Restoration Business for over 40 years in Abilene, TX. I retired from the Abilene Police Department after working as an officer and detective for 20 years. After retiring I helped Gary with his business. We now sell RV LEDs to all those that don't have LEDs in their RV.

We love living the life of RVing and I am enjoying getting the newsletter together each month for all the members.

Tucson Rally Fundraiser benefits

KOA Care Camps Help Children Who Have Cancer

Having cancer shouldn't mean giving up the joys of childhood. That's why the KOA Campground Owners Association created the Care Camps Trust — to help children who have cancer enjoy care-free time focusing on fun, friends and activities at sleep-away camp instead of on their illness.

Financial Support

The Care Camps Trust provides financial support to 125+ special nonprofit camps located throughout the United States and Canada. These facilities are fully-equipped with the necessary medical supplies and volunteer professional staff to care for campers' cancer-related needs.
