# Member Information

**LOGIN INFORMATION:** Just a reminder that we are now using an automated system to process renewal as well as new memberships.

Please take the time to visit your Country Coach Club Website at [www.countrycoachclub.com](http://www.countrycoachclub.com) and login to your account.

To login, simply enter your eMail address as the user name and then enter your password. If you have forgotten your password or are new to the site, you will need a new password. Use the password reset link that you will find on the login page and you will be sent a new password.

**TO EMAIL THE CLUB:** See Officer Contact List, page 2 (yellow box) for email address.

**TO MAIL DUES, ETC, TO THE CLUB:** See Officer Contact List, page 2, (yellow box) for CCI mailing address. When you pay online your dues are processed immediately. Due to physical mail and handling expect it to take 20 to 30 days if you are paying by check.”

**TO PHONE THE CLUB:** See Officer Contact List (page 2), select the appropriate Officer and phone that person.

Please help us keep your membership up to date, by logging in and checking to ensure your membership is current and that we have all of your current contact information.

## WHO ARE WE?

CCI is a non-profit organization, 501(c)(7), centered on Fun and Fellowship. The Club was founded in 1984 and is a Chapter of the Family Motorcoach Association (FMCA).

## WHAT WE DO

The Purpose of the Country Coach Club is to: provide a community for all Country Coach motorcoach owners to exchange information, provide opportunities for fun and fellowship, support CCI and FMCA activities such as rallies and FMCA conventions, provide a common communication and resource link for CCI members and to help our fellow Country Coachers.

## EDITORIAL POLICY

The CCI eNewsletter is published monthly, online by Country Coach International. The eNewsletter Editor is Debbie Glenn, who can be contacted by calling 325-669-6840 or online - [VPPublications@countrycoachclub.com](mailto:VPPublications@countrycoachclub.com). The Editor reserves the right to edit, shorten, or modify any material submitted.

Reproduction of ON the ROAD AGAIN in whole or in part, including photocopy, except for personal use, is prohibited without the expressed written permission of the Publisher. CCI is not responsible for any liability arising from errors, omissions, mistakes or products/service found in the eNewsletter. ## President Report

**CCI PRESIDENT**  
**Bill Sax**

Well Fall is supposed to be in full swing, but as we spend time in Texas it has been feeling more like Summer. The cool down is coming this week.

We are in Texas for the Country Coach rallies. We attended the Country Coach International rally at Buckhorn Lake RV Resort in Kerrville, TX. Board member Debbie Glenn was the host. WOW! What a great rally. Food was outstanding and our excursions to Bandera, TX for dinner and music was a blast. Bandera is the self-proclaimed Cowboy Capital of the world. Not sure if it's true but it felt & looked like it. They supply massive charcoal grills and some side dishes & you bring your own meat, then cook it yourself. Collectively our chefs did awesome. Follow that up with some country music & dancing, perfect night. Plus, a nice safe bus ride back to the resort.

We also did Fredericksburg, TX with a lunch, a visit to the Museum of the Pacific War and shopping. A great afternoon at the Taco, Tequila & Cerveza Fest in Bankersmith, TX (population 0) rounded out the day trips.

As usual we had a number of tech talks & "field trips" to our rigs to fix or discover issues. It's always rewarding to help the new members learn how to take care of their Country Coaches.

"Remember the Alamo"? Well, we then went to the Southeast Country Coach rally in San Antonio, TX for more rallying. Host Janet Sanders planned great trips to the Riverwalk, the missions and around town. Once again great food and fun. We had opportunities to ride our bikes on the Riverwalk, access was right at the campground. That's two great rallies by Janet in 2021!

If you haven't been to a rally lately, you don't know what you're missing. Come on out, have some fun & learn or share about our great coaches

Our club is doing well. We are hoping to get more members from our Facebook presence. Of course, we still need you to help.

Be sure to check the list of upcoming rallies in 2022!

I'll be CCing you on the road!!!

Bill

# Advertiser of the Month - Premier RV of Oregon

Premier RV Services was created with You, our Longtime Friends, in mind. We're here with qualified services such as renovations and coach repairs; a safe, secure place to store your motorcoach in between those RVing adventures; and a reputable partner to entrust your Country Coach (or other Highline brand) to if and when you decide to sell your motorcoach. We specialize in Country Coach, but well-maintained, gently used "other brand" highline diesel motorcoaches are welcome. We always need new consignments! Give us a call at 541-998-2640. Don't wish to consign? Call us about a possible purchase of your coach, too. Trades are welcomed. Stop in and take a tour of the largest indoor showroom of pre-owned Country Coaches and highend diesel engine motorhomes in the U.S. at 325 East First Avenue in Junction City.

# Winterizing Your Motorcoach

By Mark Layton

I meet people all the time that don't understand that you can use your coach to go skiing or whatever you like to do in the winter at temperatures below freezing. I have been skiing out of a motorhome since 1970 and thought that I would like to pass on some of the things that I have learned.

First of all, we are very fortunate to own a coach now that is really well insulated that makes things easier. You do have to remember that coach manufacturers don't put a lot of priority into making sure that nothing freezes, since most of their sales are to people that go to warm climates. When I ordered my last coach, a 2000 Magna with a kitchen slide and heated floor, I made sure that certain things were done before I took delivery. The nice thing is that all of these can be done to any coach and at any time.

Besides what was done at the factory I had my tires siped\* which really helps a lot. You are going to say what the heck is that. That is exactly what I said when I first heard about it from a highway patrol officer in Idaho. One day I was talking to the officer and asked what kind of chains they use. His answer was, "We don't use chains; we have our tires siped and therefore don't need chains." So, I went to Les Schwab in Junction City and asked them about it and was told that most of the truckers have their tires siped for better traction. Since then I found that my tires wear better because they run cooler, and I have much better traction on slick or wet roads.

The freeze protection that all manufacturers put in your coach is fine up to a point. It takes care of the water and holding tanks but not the water pump. Since the water pump is at the lowest point of your service bay it will freeze if you don't give it some extra protection. There is a very small 12-volt heater available and I had that installed and hooked up to the thermostat which takes care of the freeze protection in the service bay.

Your hot and cold-water lines will also need protection if you have a kitchen slide. We heat taped all the water lines going to the slide and put insulation around them. The other thing to remember is that your refrigerator has a water line that goes to the icemaker. This line is plastic and you have to replace it with copper tubing before you can heat tape it as the plastic line will fail from the heat tape. (I found this

# Winterizing Your Motorcoach

out the hard way). These are things you should do before going to really cold climate. Other things you will need when you get there are some 60-watt light bulbs, three or four small electric heaters and a good snow shovel. Even though we don't travel when it is snowing any more it is nice to be able to keep your place clean around the coach. We found that since I am retired we don't have to travel when the weather or roads are bad so that is not a problem anymore. I do carry a set of chains just in case but have not used them since we got the Magna.

You ask what in the world are the light bulbs for? They are to plug into your bays. I get the light bulb attachments that have a socket on one side and two prongs on the other so you can plug them into any outlet. Usually, the 60-watt bulbs are enough to keep things from freezing in your bays.

Just about all the places we go have 50-amp hook ups. I put one of the electric heaters in the service bay and one in the bay that has the water filter. I found that at 25 below things will freeze even with the light bulbs going. As far as the service bay is concerned, you would not have to use the heater but why burn your propane or diesel if you have power available. The heaters in the outside bays are plugged into a 30-amp cord with the right adapter that is available at all camping stores. All the hook ups that I have seen have a 50- and 30-amp outlet. I use both the 50 amp for the coach and the 30 amp for the heaters. That way I don't overload the breakers in the coach. I also use two electric heaters in the coach to cut down on my cost for diesel or propane and having to move the coach for refueling.

The other thing that is a must is to protect your cooling unit of your refrigerator. The manufacturer of the refrigerator tells you that all you have to do is to turn the switch on which keeps the light on inside the refrigerator. I found that not to be good enough in real cold weather. I use the foam insulating tubing that they use for water pipe and cut it to the right length and cover all but one row of the outside vents. Then I also put a light bulb in the area where the cooling unit is to keep it from freezing. No matter what someone may tell you, I have seen too many cooling units freeze and have to be replaced. Two years ago, when we had a real cold spell in Breckenridge the service truck replaced at least five or six units in one day at the cost of about \$2000.00 each. Mine was not one of these needing replaced; it was working fine--and still is.

Now what to do about filling with fresh water and dumping. I see a lot of people

# Winterizing Your Motorcoach

making up and using water hoses with heat tape and insulation. I also see the problems they have some of the time with the faucets freezing because they are designed to drain back and are not freeze proof when the water is left on. I fill with water and dump when I need to and empty the hoses and put them away till I need them again. I do it this way so as to eliminate any chance of problems. Since we usually go to the hot tub after a hard day of skiing and take our showers there, we don't use a lot of water and therefore don't have to fill and dump that often.

Sometimes we do dry camp in the winter when we know that it is not going to get too cold. Then you have to be prepared to run your generator more often. If you have a kitchen slide bring it in at night, when temperatures are at their lowest, so that your furnace will keep everything in good working order.

After I retired, we went to Tiger Run RV Resort\*\* in Breckenridge, Colorado for longer periods of time and found that there we're only a hand full of RVers there in the winter. Today there are at least 50 to 75 RVs there all winter long. Tiger Run has an indoor pool, hot tubs and clubhouse. We even have wine and cheese parties every Wednesday evening all winter long. We also found that there are quite a few RV parks near ski areas that are open in the winter.

You will find that if you are prepared and do the things that I have been talking about you will enjoy your coach just as much in the winter as in the summer!

## Gluten-Free Vanilla Bean Cupcakes - Made by Lynette Wyatt

### INGREDIENTS

#### FOR THE CUPCAKES:

- ½ cup (4 oz.) vegetable oil (or oil of choice)
- ¾ cup (160g.) granulated sugar
- 2 large eggs, room temperature
- 1 ¼ cups (180g.) all purpose gluten-free flour blend (I used Bob's Red Mill Gluten Free 1-to-1 Baking Flour)
- ¼ teaspoon salt
- 1 ¾ teaspoons baking powder
- ½ cup (4 oz.) dairy-free milk (or dairy milk)
- 2 teaspoons gluten free vanilla extract (or vanilla bean paste)

#### FOR THE FROSTING:

- ½ cup (4 oz.) dairy-free butter (or dairy butter), room temperature
- 1 teaspoon gluten free vanilla extract
- 3 cups (360g.) powdered sugar
- 2 tablespoons dairy-free milk (or dairy milk)

### INSTRUCTIONS

For the cupcakes: Preheat oven to 350°F (180°C). Position rack in center of oven. Line cupcake pan with paper liners; set aside.

In a medium mixing bowl combine oil and sugar.

Add eggs and beat with an electric mixer at medium speed for one minute. Add flour, salt, baking powder, dairy-free milk, and vanilla extract (or paste); beat at medium speed for one minute.

Spoon batter evenly into cupcake liners. Bake for 18-20 minutes or until the centers springs back when touched and cupcakes are very lightly browned.

Let cool in the pan on rack for five minutes. Remove cupcakes from pan onto rack and cool completely before frosting.

For the frosting: In a medium mixing bowl, beat together dairy-free butter and vanilla paste until smooth and creamy.

Gradually add powdered sugar, one cup at a time, beating well. Alternate one cup of powdered sugar and 1 tablespoon of dairy-free milk until all ingredients are blended.

Beat in additional dairy-free milk if needed to obtain desired constancy.

Frost and enjoy!

### NOTES

You can use regular milk and butter in this recipe if you don't need to eat dairy-free.

**IMPORTANT:** When working with or measuring gluten-free flour, spoon the flour into the measuring cup and level. Do not scoop your measuring cup into the gluten-free flour. The best method really is to weight it but I don't have the ingredient weights for all my recipes yet.

## Baked Beans - Made by Tammy Retz for the Potluck Dinner

- 1 lb ground beef
- 28 oz can baked beans
- 8 oz can pineapple tidbits, drained
- 4 1/2 oz can sliced mushrooms, drained
- 1 lg onion, chopped (optional)
- 1/2 cup BBQ sauce
- 2 tbsp soy sauce
- 1 clove garlic, minced
- 1/2 tsp pepper

1. Brown ground beef in skillet, drain, place in slow cooker.
2. Stir in remaining ingredients, mix well
3. Cover, cook on low 4-8 hours or until bubbly.
